

LOUISVILLE POPULATION CENTER TRAINING

UNIVERSITY OF LOUISVILLE - SHELBY CAMPUS

FOUNDERS UNION BUILDING ROOM 6

9001 SHELBYVILLE RD. LOUISVILLE, KY

October 3 – 6, 2016

Free Training

Monday – October 3rd

Overview of the Kentucky OSH Program

8:30 - 11:30 a.m.

This session discusses the obligation to provide a safe and healthy workplace free from recognized hazards. Topics of discussion include the operations of the Kentucky Occupational Safety and Health Program, including enforcement and voluntary compliance services, and safety and health topics currently being considered for future standards and policies.

Basic Electrical Safety

1:00 – 4:00 p.m.

This session covers the basic requirements surrounding the approval, installation, and use of electrical equipment and devices. The course is built around OSHA standards found in 1910.303 to .305. Includes a discussion of OSHA and industry standards as they relate to the installation of electrical equipment, commonly cited approval and installation violations, an overview of the equipment approval process, cord marking requirements, and basic hazards found in commonly made electrical wiring issues. Involves group-based and hands-on learning activities, including flexible cord marking designation and determining wiring issues associated with an electrical fault board.

Tuesday – October 4st

Hazard Communication/Global Harmonization

8:30 - 11:30 a.m.

This session covers the basic requirements of 29 CFR 1910.1200 and the revised provision of the standard as they relate to the Globally Harmonized System of Classification and Labeling of Chemicals (GHS). Attendees will learn about the revised standard, which will include chemical hazard classification, written program requirements, container labeling and other forms of warning, safety data sheets, and associated phase-in dates for the new requirements under GHS.

Permit Required Confined Space

12:30 - 4:30 p.m.

This session explains the regulations regarding entry into and working in confined spaces. Topics include confined spaces found in the workplace and the hazards associated with them, the regulatory impact of the 1910.146 standard, developing a written program, training employees, permit systems, rescue, and employee participation.

Wednesday – October 5th

Injury and Illness Recordkeeping

8:00 - 12:0 p.m.

This session is for those persons responsible for maintaining the revised injury and illness records. The forms 300, 301, 300A will be covered. The regulations and guidelines for recordkeeping will be discussed, as well as the compliance directive the Kentucky OSH compliance officer will use to evaluate your records. A recordkeeping example workshop will be part of the course, time permitting. **Note:** Students will receive an OTI certificate for this class.

Excavation and Trenching

1:00 - 4:00 p.m.

This session considers provisions carried under 1926, Subpart C and Subpart P, related to trenching and excavation safety. The class will review site preparation, opening and working in an excavation, and the requirements for employee protection. Sample Emergency Action Plan and Daily Excavation Checklists are provided. Note: Attendees will not become a “competent person” from only attending this course.

Thursday – October 6th

Fall Protection

8:30 - 11:30 a.m.

This session is designed to familiarize participants with Kentucky OSH Fall Protection standards 1926.500-1926.503. Topics include requirements for employers to provide fall protection system, description/requirements of fall protection systems and training requirements.

Bloodborne Pathogens

1:00 - 4:00 p.m.

This session covers the requirements of 29 CFR 1910.1030 and the measures which must be implemented to protect employees from the hazards of occupational exposure to blood and other potentially infectious materials containing bloodborne pathogens, such as hepatitis B virus, (HBV) and human immunodeficiency virus (HIV). Topics of discussion include applicable definitions; infection control; engineering and work practice controls, including universal precautions, personal protective equipment, and housekeeping; medical evaluations; warning signs and labels; and training of employees.
