## ***EDI Update!***

The following Data Elements will be added to the State of Kentucky EDI Program. These additions are based on IRRs that passed committee and data elements that have been incorporated into the IAIABC Implementation Guide for Release 3.0 Claims. These changes will be effective April 1, 2014. We will be updating the DWC's FROI and SROI data element tables to include these new fields, making them available for you to utilize if you wish. A notice will be sent once the tables are revised and changes have been fully implemented.

On a separate note, please remember that the UI – Under Investigation MTC codes MUST be followed up with a FROI 00 or FROI 04 within 56 days or penalties may be assessed. We have created a report to demonstrate failure to comply with this requirement.

Kentucky will generate a new Statute of Limitations Letter (WCR3C) when a FROI MTC 01 cancellation is accepted with unsuspended benefits. This will be effective ***April 1, 2014***.
